LO SPIRITO ITALIANO DEL DESIGN

Since 1995, AXA has sought harmony between a traditional experience and the new emotional concept of the bathroom being centre of a home's ambience. Strengthened by the industrial sector of Civita Castellana, AXA has successfully preserved the values of a family company. A complete expression of original, globally-renowned Italian craftsmanship and a symbol of excellence in design, functionality and quality, AXA has remained focused on searching for new interests and technologies aimed at promoting the protection of the environment and the conservation of energy.
